

ROHIT KUMAR JAISWAL

MERN Stack Developer

Vadodara, Gujarat, India | 8521849199 | rkjrohitjaiswal@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on project experience across the MERN stack, including full-stack platform migrations, AI-integrated tools, and conversion-focused marketing sites. Solid foundation in core CS subjects and DSA (150+ LeetCode problems), with growing, project-driven experience in React, Node.js, MongoDB, and third-party integrations (Firebase, Stripe/Razorpay, OpenAI/Gemini AI).

TECHNICAL SKILLS

Languages: Java, C, JavaScript

Frontend: HTML, CSS, JavaScript, React (Beginner – MERN Stack)

Backend: Spring Boot, Node.js (Beginner)

Databases: MySQL, MongoDB

AI / ML / Data Science: Machine Learning basics, AI fundamentals, Data Analysis (Beginner)

Other: Vibe Coding (AI-assisted rapid prototyping), Git & GitHub, REST APIs

CORE COMPUTER SCIENCE KNOWLEDGE

- Operating Systems: Process management, memory management, scheduling, deadlocks, and file systems.
- Computer Networks: OSI/TCP-IP model, HTTP/HTTPS, DNS, routing, sockets, and network security basics.
- DBMS: Normalization, SQL queries, indexing, transactions, ACID properties, and query optimisation.
- DSA: Arrays, Linked Lists, Trees, Graphs, Dynamic Programming, Recursion — applied in 150+ LeetCode solutions.
- System Design: Foundational concepts supported by DSA, OS, DBMS, and networking knowledge.

ACHIEVEMENTS

- Solved 150+ Data Structures & Algorithms problems on LeetCode using Java and C.
- Built and deployed multiple full-stack and AI-powered projects independently.
- Developed an AI interview platform integrating resume analysis, coding rooms, and virtual interview services.
- Actively learning Machine Learning, AI, and Data Science for future specialisation in intelligent systems.

PROJECTS

Raft Tutor Axis — Full MERN Stack Migration | Personal / Freelance Project

- Led a complete migration from a React + Express + JSON-storage stack to a full MERN stack with Mongoose data models.
- Implemented JWT-protected admin routes and API rate limiting to secure backend endpoints.
- Integrated Gemini AI to power an in-app chat feature for user support.
- Built the platform's public landing page (bookhometutor.com) with booking forms, live stats, tabbed enquiry forms for parents/teachers/schools, and WhatsApp/call integrations.

AI Travel Itinerary Generator | Personal / Freelance Project

- Developed a full MERN stack application that generates personalized travel itineraries using Gemini AI.
- Implemented JWT-based user authentication and a complete React frontend.
- Integrated weather and translation APIs to enrich itinerary recommendations.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering (AI)

Parul Institute of Technology | Currently Pursuing | CGPA: 6.50

Class XII (Higher Secondary) | 62%

Class X (Secondary) | 63%
